# VISIONMOUNT® Super Slim Full-Motion Mounts

The new VMF308 and VLF311 Super Slim full-motion mounts place ultra-thin and standard depth LCD, plasma and LED TVs just 1.25" from the wall while still offering full-motion movement. With the lateral shift feature, TVs can slide left and right for perfect TV placement. A cable management guide keeps loose cables organized for a clean appearance without compromising TV movement, and a decorative cover creates a finished look by concealing the assembly and mounting hardware.

# VISIONMOUNT Super Slim Tilting Mounts

The new VMT15, VMT14 and VLT14 Super Slim tilting mounts place ultra-thin and standard depth LCD, plasma and LED TVs less than 1" from the wall and offer up to 10° of smooth tilting capability with fingertip tilt. These mounts make accessing cables behind the TV effortless. Simply pull down on the quick-release tabs to unlock the TV from the wall plate, and the ClickStand™ mechanism holds the TV away from the wall. The VMT15, VMT14 and VLT14 also feature lateral shift for perfect TV positioning, even with off-center studs.

VISIONMOUNT Tilting Mount

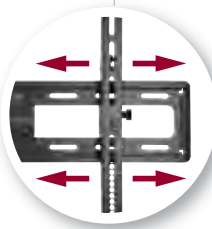

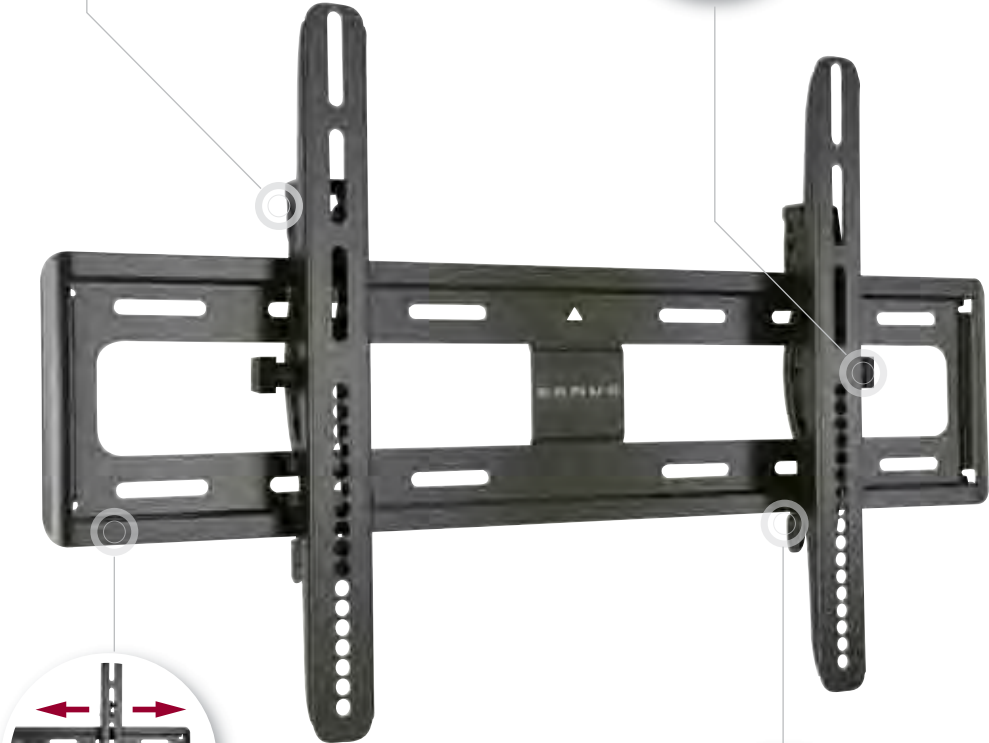

With the VMPL50A tilting mount, SANUS improved upon its most popular mount, the VMPL50, and made it even better. This heavy gauge steel mount is now slimmer for a sleek, high-tech look and supports TVs up to 60". It also has ProSet™ technology, allowing post-installation height and leveling adjustments. Additionally, the VMPL50A features a new open wall plate design for cable management and the easiest installation possible.

ProSet™ technology height and leveling adjustments allow TV to be perfectly positioned after hanging

Virtual Axis™ technology provides smooth tilt motion with the touch of a fingertip

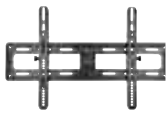

Rail design allows TV to shift left and right for perfect placement, even with off-center studs

TV brackets snap into place on wall plate for added safety and ease of installation

VISIONMOUNT All-Weather Full-Motion Mount

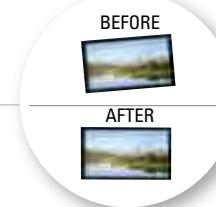

The latest addition to the VisionMount family is the perfect solution for outdoor TV mounting. Featuring a rust-resistant coating and stainless steel hardware, this sturdy mount will stand up to the elements and can be used both indoors and outdoors. The VXF220 also features exclusive FollowThru™ in-arm cable management technology, completely concealing cables the entire length of the arm, even through the elbow, for a seamless installation.

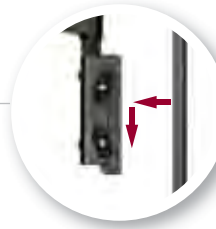

Rust-resistant coating and stainless steel hardware has been tested to stand up to rain, snow and salt

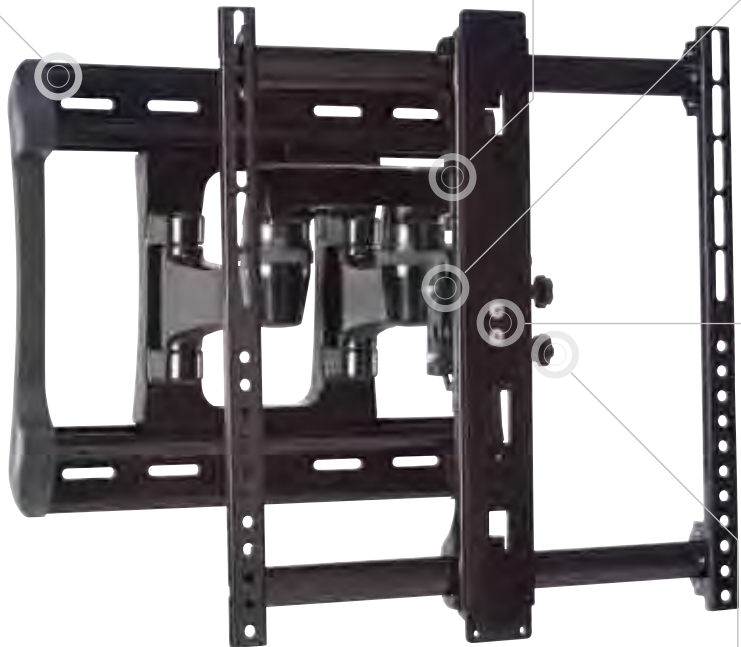

FollowThru™ in-arm channels completely conceal all cables without inhibiting movement, even through the elbows

Fine-tune TV's height and level up to 6° — even after it's mounted — with ProSet™ adjustment feature

QuickConnect™ system allows mounting head to snap onto arm assembly with one easy movement and unlock with the push of a button

Virtual Axis™ allows TV to tilt up or down with the push of a finger — easily reduce glare from lights or windows

# VISIONMOUNT Projector Mount

SANUS' new projector mount, the VP1-B1, is the perfect addition to any home theater and works with nearly all DLP and LCD projectors currently available. Using the release lever, a projector can be connected and disconnected from the VP1-B1 mount without altering projector registration. Unlike other projector mounts, the VP1-B1 includes everything needed to complete installation in one box, making installation as easy as possible.

# VISIONMOUNT iPad™ Mount

New to VisionMount, the VMA301 is SANUS' first mount for the iPad™. The mount features a custom mold design and material that ensures the iPad™ is securely attached to the mount. The VMA301 can be attached to any VESA 100 x 100 compatible TV wall mount, and when combined with a full-motion mount, the iPad™ can be viewed from anywhere in a room. A Virtual Axis 3D™ cup-shaped faceplate is included with the VMA301, allowing both portrait and landscape viewing.

VISIONMOUNT iPad™ MOUNT

## FOUNDATIONS Basic Series AV Furniture

New to the SANUS Foundations Basic Series AV Furniture, the BFAV48 AV stand adds function and style to any décor with its deep shelf capacity, vented shelves and rich wood grain finishes. Combine it with Foundations Floor Stand Series FMK056 mount kit to add the sleek look of a mounted TV anywhere in a room. The FMK056 can be easily attached to the BFAV48 or other select SANUS furniture.

**Basic**

Deep shelf capacity  
accommodates large  
AV gear

Tool-free construction for a  
quick and easy assembly

Vented shelves allow air  
to escape to minimize  
heat on equipment

Hardwood veneers  
complemented by a rich  
chestnut or chocolate finish

Works great in corners

Powder-coated  
steel frame provides  
a stable and stylish finish

Painted glass shelves  
and waterfall design add  
elegance to any room

Adjustable feet keep TV  
level on uneven floors for  
improved stability

## FOUNDATIONS Basic Series AV Furniture

The new BFAV344 AV stand has adjustable feet that provide enhanced stability to TVs on uneven floors. The stand also features large wire management holes that ensure AV cables are organized. Combine the BFAV344 — or other select Foundations furniture — with Foundations Floor Stand Series FMK056 mount kit for a simple pillar-mounted solution anywhere in a room.

Stylish curved shape complemented by high-gloss black lacquered finish

Generous wire management holes keep AV cables organized

Works great in corners or against flat walls

Adjustable feet keep TV level on uneven floors for improved stability

## FOUNDATIONS Floor Stand Series FMK056 Mount Kit

Mount tilts  $\pm 12^\circ$  and swivels  $30^\circ$  for simple viewing angle adjustments

Hide cables behind pillar to maintain a clean appearance

Easily attaches to several SANUS Foundations AV cabinets and stands

## SANUS ELEMENTS™ Flat-Panel TV Anti-Tip Strap

The new addition to the SANUS Elements™ line, the ELM701 anti-tip strap, reduces the risk of TVs or furniture accidentally tipping, creating a safe environment in any room. A secure connection provides additional safety and durability. The strap's universal design works with TVs up to 60". Installation is easy with all the hardware necessary for TV, furniture and wall mounting included.

Prevents TVs and furniture from accidental tipping

Includes all hardware for mounting to TV, the wall and most furniture

Universal design supports TVs up to 60"

Strap has a secure connection, which provides safety and durability

## FOUNDATIONS Component Series AV Racks

New to the SANUS Foundations Component Series, the CFR144 AV rack comes pre-assembled and features the ability to enclose AV gear while maintaining visibility through a lockable tempered-glass door. The CFR144 rack was engineered with a convection cooling system. Cool air is drawn into the bottom of the rack while warm air escapes through the top, ensuring AV equipment is always kept at the perfect operating temperature.

Component

Comes pre-assembled with shown blanking panels for the ultimate in quality and flexibility

Lockable tempered-glass door with quarter-turn handle encloses gear while maintaining visibility

Three section back panel with wire management openings and removable panels for maximum wire capacity

Unique convection cooling system allows heated air to escape through top as cooler air is drawn in through bottom, keeping AV gear at the proper temperature

Removable side and back panels allow complete and total access to components and wiring

Swivel casters and adjustable feet allow stable positioning and mobility

### FOUNDATIONS COMPONENT SERIES AV RACKS

MODEL..... CFR144  
RACK SPACES..... 44U  
WEIGHT CAPACITY ..... 1000 lbs.  
AVAILABILITY ..... Q1 2011

INCLUDES ..... 1U Shelves (5)  
3U Shelves (3)  
1U Blanking Panels (11)  
2U Blanking Panels (8)

## FOUNDATIONS Component Series AV Racks

The new CFR333KD AV rack features the patented knock down design. This innovative design allows the rack to fit into a smaller package, simplifying transportation. It also makes assembly easy in less than 15 minutes. A lockable rear door that can be interchanged with the front door and a lockable tempered-glass door with a quarter turn handle offer the ability to completely enclose AV gear. The CFR333KD makes access to components and wiring easy with removable side panels.

Component

Patented knock down design allows for convenient transport and quick assembly in less than 15 minutes

Lockable tempered-glass door with quarter-turn handle encloses gear while maintaining visibility

Two 3U openings on top and bottom for improved cooling and extra wire management

Unique convection cooling system allows heated air to escape through top as cooler air is drawn in through bottom, keeping AV gear at the proper temperature

Removable side panels allow complete and total access to components and wiring

Swivel casters and adjustable feet allow stable positioning and mobility

FOUNDATIONS Euro Series AV Racks

The new EFAP Euro Series rack pull-out base can support up to 125 lbs. while offering effortless movement. The EFAP features a rotating top that can swivel when pulled out from the wall, allowing for easy component access. Constructed from heavy-gauge steel, the rack provides durability and years of trouble-free service. Combine the EFAP with Euro Foundations™ accessories for a fully customizable solution.

Euro

FOUNDATIONS Euro Series AV Furniture

New to the Foundations Euro Series, the EFA31 and EFAV40 AV shelves feature a modular design, making both shelves fully customizable to work with AV systems of any size. A frame of heavy-gauge steel gives each shelf extreme strength and rigidity to support large AV components. Additionally, the EFA31 and EFAV40 are constructed with an open architecture design to keep AV gear cool with constant airflow, and quick lock wire management clips route component wiring for a clean, sleek look.

Euro

Compatible with Euro Foundations™ accessories for customizable solutions

Rotating top allows rack to swivel when pulled out for easy access to components

Ball bearing, heavy-duty slides support 125 lbs. with effortless movement

Heavy-gauge steel construction provides years of trouble-free service

Modular design is completely customizable and can easily expand to fit any AV system

Quick lock wire management clip routes wires for a clean, organized appearance

Heavy-gauge steel frame provides incredible strength and rigidity

Open architecture ensures constant airflow to keep components cool
